

Barnfield Induction Certificate for Dental Nurses

A distance learning programme, which supports employers in meeting the needs for a robust induction programme prior to a student dental nurse embarking on a GDC recognised registrable qualification. Students will work through a tailor made online dental nurse induction programme, this will be supported with a hardcopy learner guide which contains short assessments for submission to the course tutor. Student will be required to produce a portfolio of evidence by the end of the course and sit and pass a final online assessment.
