

HEE Midlands and East 2020-2021 Extended Duties Programme for Dental Nurses

Who we are

HEE is here to improve the quality of healthcare for the people and patients of England through education, training and lifelong development of staff. Working across Midlands and East, HEE aims to provide high quality education and training to all health professionals across the area.

What we do

Our vision is to provide the right workforce, with the right skills and values, in the right place at the right time to better meet the needs and wants of patients – now and in the future. HEE provides education and training for all of the dental team in Midlands and East including dental nurses.

Eligibility criteria?

- Currently registered with the GDC as a Dental Nurse, with evidence of primary qualification
- Employer support, full course attendance and completion of associated work is required. Please see individual course details for detailed information

Turn over leaf to view our
2020-2021
offering of
courses

What is Extended Duties?

Since the inception of the GDC's Scope of Practice (SoP) document in September 2013, extended duties courses are growing in numbers across the UK, thus providing opportunities for dental nurses to develop further knowledge and new skills in extended clinical duties.

Who is it aimed at?

GDC registered Dental Nurses currently working within the Midlands and East Dental Services

What are the benefits?

- Advance your skill set
- Take on new duties and responsibilities
- Career progression into senior roles
- Most of our courses offer accreditation with a professional body

Oral Health Promotion

Health Education England (HEE) working in collaboration with Orthodontic Team Training are pleased to provide registered Dental Nurses the opportunity to up-skill, adding strength to the dental team.

The virtual programme maximises all of the benefits of online learning.

You will take part in an interactive virtual taught day, which is followed up with a period of combined e-learning, revision and tutor support whilst you complete an online Record of Assessment evidencing your practical skills in Oral Health Promotion. A short E-Assessment concludes the programme.

Date: Sat 17th October 2020 – Sat 21st November 2020

Venue: E-Learning environment; PebblePad with Orthodontic Team Training tutor support

Aim: This course will provide students with the additional knowledge, skills and understanding to work as a dental nurse with additional skills in Oral Health Education.

Objective/s:

- Demonstrate skills in the management and delivery of Oral Health Education, and the development of oral health promotion programmes for a range of groups of people.
- Provide an insight into Delivering Better Oral Health, the scientific basis of oral health promotion and oral health education and to develop an understanding of the link between general health and oral health.
- Proficient in the design and delivery if appropriate, individual oral health care plans to prevent/minimise the effects if oral disease.

GDC Development Outcomes: A, B, C, D in part

Learning Content: By the end of this course students will be able to participate in the management and delivery of Oral Health Education, including oral health promotion
