The Trainer in Difficulty

“We as trainers struggle because we don’t have the techniques, we don’t want the challenge of dealing with those difficult conversations, it doesn’t feel culturally acceptable to identify failure rather than success, and it’s easier to put your head in the sand and let it be somebody else’s problem rather than acknowledging the issue and taking on what is extra work”

Supporting the Trainer

- Early intervention
- Strategies for resolution
- What happens when things go wrong

Group Work

1. What are the barriers to reporting and tackling underperformance?
2. What are the risks and to whom ?

Barriers to reporting/dealing with professional concerns

- Time
- Transfer of information
- Equality
- Challenge
- Concern of effect on team
- Requires support from colleagues
- Avoidance / Escalation
- Difficulties of performance assessment
- Confidence of the trainer
- Labelling
- Conflict of interest

Why don't these issues get tackled earlier

- Fear of confrontation
- Fear of retaliation
- Denial
- Lack of confidence in skills
- Lack of “evidence”
- Desire to rescue or protect
- Avoidance
- Frustration
- Helplessness

Establishing Risk

- What is the risk to:
 - Patients?
 - Self?
 - Team?
 - Organisation?

Case Study
