The Evelyn Cambridge Surgical Training Course

Facial Trauma Plating - Wet Lab

Meet the Course Director

Mr Malcolm Cameron
Consultant Surgeon

This two day, hands on cadaveric course uses fresh frozen specimens with multiple genuine facial fractures and is open to trainees in Oral & Maxillofacial and plastic Surgery plus related specialties involved in the care of trauma patients.

Course Summary

Hands on course with 2-3 delegates per work station undertaking operative procedures on fresh frozen cadaveric material with real bony injuries. The course emphasises surgical access and plating procedures needed to treat the bony facial skeleton.

It is conducted in a state of the art wet lab with instructors giving real time demonstrations of each procedure followed by the delegates operating themselves with expert faculty on hand throughout the day. By the end of the course each delegate should be familiar with standard approaches to the facial bony skeleton and principles of plating for each anatomical region.

Areas covered include:

- Mandible
- Maxilla
- Zygoma
- Orbit
- Nasoethmoidal
- Frontal

Registration

The preferential rate for this course is continued from last year. A two day course to include specimens (without ‘C’ Arm).
Number of delegates 2-3 per station.
Number of faculty 1 per station; 10 station maximum.

Course fee - £500.00
