| 4: | | 3.3% | 1 |
| 5: | | 33.3% | 10 |
| 6: | | 60.0% | 18 |

| 8. Are there any further comments you would like to make? |
|---|
| enjoyed the topics especially that on soft tissue trauma |
| I think it's a shame that not more Consultants from other Units attended in the afternoon, very disappointing for the courser organisers. I think this is the best Regional study day so far (no I'm not biased) because the lecturers were not just scraping over the surface of the topics and they were engaged in what they were doing. |
| Maybe get confirmation of payment a little earlier. |
| more clinical it is the better. could have done with a few more case examples for new df2's. otherwise good |
| New subjects |
| nil |
| no |
| None |
| The day was a bit too early in the year to produce an audit for presentation |
| Venue, i appreciate, is located for being central but is a long way to get to. Could it rotate location between the hosting hospitals? |

| 9. Do you have any ideas / suggestions for future study days? |
|---|
| Compulsory for Consultants from other units to attend because their input is important as well! |
| Ethics/Radiology study days |
| iatrogenic incidence |
| none |
| spend more time on the presentation ny the strker rep as I feel he went through it too fast! |

END OF QUESTIONS
