

## Bursary Funding Available: PGCertEd & PGDipEd/MMed/MEd

Health Education East of England, working in partnership with Local Education Providers, is actively supporting the development of health care educators in the east of England through the provision of bursary funding for academic courses. The initiative aims to foster excellence within clinical education and enhance multi-professional learning and teaching.

The bursaries are intended to be used for PGCertEd/PGCertMedEd and PGDipEd/MMed/MEd courses offered by Universities in the east of England. The bursaries are available on application to one of four host Postgraduate Education Centres covering the region. Funding is available per module as well as per course; money will be paid on an annual basis for modules and Masters courses. Courses and modules commenced after September 2013 will be eligible as will registrations to commence a course up to December 2014.

Applications are invited to the Postgraduate Education Centres listed below. The application form is available on the HEEoE website and from the Postgraduate Education centre.

**The scheme is designed to support healthcare educators in all professional disciplines.**

### For Cambridgeshire & Peterborough apply to:

Medical Education Manager  
Addenbrookes Postgraduate  
Medical Education Centre  
Addenbrookes Hospital  
Hills Road Cambridge CB2 2SP
