all key documentation is available via the COPDEND website

[National DCT Recruitment key documents](#)

DCT1

This training year supports trainees to build on the skills, knowledge and behaviours gained in DFT/VT in addition to the development of enhanced clinical skills relevant to primary or specialist dental care. On completion a trainee could either return to general dental practice or advance to DCT2.

DCT2 and DCT3

Is suitable for individuals seeking to pursue dental specialty training or become a dentist with developed competence in some areas. Trainees will have the opportunity to further develop their clinical skills, experience and an increased level of leadership. In addition to more opportunities for academic achievement.

Starting salary for 2017

The salary range for DCT posts is £28,357 to £45,750

Please Note: Salary will vary with grade of post and location.
