Morning & Afternoon Sessions

CPD = 6 Hrs

Advanced Treatment Planning 09.30

Jason Niggli Clinical Lecturer & Joint Senior Tutor QMUL

Aims & Objectives:

For participants to understand the importance of evidence gathering, analysis & logical planning in the treatment of complex clinical dental cases.

The speaker will:

- Demonstrate effective history taking.
- Define effective treatment planning.
- Explain outcome monitoring.

Learning Outcomes:

Following this session delegates will be able to:

- Implement effective history taking & examination • procedures
- Construct an accurate diagnosis
- Design an effective treatment plan
- Stage treatments appropriately
- Monitor treatment plan outcomes •

THINGS TO REMEMBER

Details of a complex case you have encountered. Please bring all artefacts—notes, models, 1. radiographs, photographs etc

DFT Competency Framework elements covered: Clinical 1,2

Friday 9th & 16th February

Foundation Skills Reminder

How many topics do I complete?

You are required to complete a further 12 topics by 16th March 2018. Note that you can choose which topics, with the proviso that your choice must contain at least one topic from every module. Your work will be assessed and graded in December. Please refer to the information on the assessment sheet.

WRITING THE FOUNDATION SKILLS & LINKING THE EVIDENCE

Please refer to each module where you will find the topic areas to cover. It is down to you to put together your own brief factual account and include your chosen piece of evidence that supports your write up. Do make reference to best practice, legislation, professional regulation and guidance. The first part of your write up will be a factual account on the topic. This will need to be brief and to the point. You are then expected to reflect on your account and this should be more detailed. Reflective writing is about your own thoughts and feeling about the topic at hand and so it is personal to you. The majority of your write up must be in this reflective style. Then finally you may mention some plans to progress or improve.

Where do I write my piece of writing? Each module has included within it a page long text box. You are limited to this single text box on one page of writing. This will mean you will need to write concisely and to the point. A large volume of work is discouraged. As a guide for each topic, the word count can range from 250-300 words per topic Please use Ariel font size 11 with 1.5 line spacing of paragraphs.

How many items of evidence should I use? Again think quality of evidence not quantity. Approximately 10 pieces of evidence per Module is desirable to put forward in December for the assessment, and the same for the second submission in March. You will find that fewer items of evidence can still enable you to demonstrate achievement in the variety of topics. One example of an item you can use in such a way is an anonymous clinical record.

What can I use as evidence? You can use a variety of items. Suggestions are made for each module. It is important to remember that the evidence will have arisen from your training practice and you must seek advice or gain permission to use material when it is appropriate to do so. Be mindful that there may be issues surrounding consent, confidentiality or copyright that may prevent you from using some evidence. You may wish to redact certain pieces of evidence, so you can use them to illustrate your practices without breaching confidentiality.

When thinking about evidence to include, think about:

- quality not quantity don't include blank forms or blank templates!
- cross referencing if a piece of evidence is used more than once, refer to the section it has been used previously instead of reproducing it again.
- photos are a particularly good way to capture your evidence. You are encouraged to use suitable images within your write up to substantiate your points.
- anonymous entries remove sensitive information.
- variety use a wide range of evidence items to illustrate your practice.

ASSESSMENT FOR SATISFACTORY COMPLETION

A well written and presented foundation skills project that is personalised will serve as a reflective portfolio that you will need to present to meet satisfactory completion requirements. Please become familiar with the assessment framework provided.

One assessor will mark one topic of your work. Attainment of average scores of 3 or 4 per topic is expected and essential for satisfactory completion. Scores below are unacceptable and you will then be given an opportunity to redo the work and meet the acceptable mark

PRESENTATION

Bring a digital version of your Foundation Skills on a tablet or laptop. Please ensure you have a fully charged device that can survive several hours of use.

Friday 23rd February

Ipswich PGME

Morning & Afternoon Sessions

CPD = 6 Hrs

09.30 Advanced & Rotary Endodontics

Shashi Mishra

Endodontist Specialist

Endodontist Specialist Shashi Mishra will seek to expand on the practical endodontic session held in our first term.

He will demonstrate the theory and use of modern rotary endodontic systems. Shashi will also aim to help you with more complex problems such as repeat endo' and removal of fractured instruments.

Objectives

This session will enable the Foundation Dentist to begin using rotary endodontic systems with confidence. It will also seek to arm the Foundation Dentists with extra skills to deal with less common endodontic stumbling blocks such as fracture instruments.

Learning Outcomes

Following this session delegates will be able to:

- Treatment plan more complex endodontic procedures
- Safely use rotary endodontic systems
- Assess and attempt to remove fractured endodontic instruments

THINGS TO BRING

- 1. Several extracted, pre-extirpated teeth
- 2. Extracted previously RCT'd teeth

DFT Competency Framework elements covered: Clinical 2, 10

This is the standard of RCT you might be able to achieve after this course!

Friday 2nd March

Ipswich PGME

Morning & Afternoon Sessions

CPD = 6 Hrs

09.30 Prosthetics

Mark Davis

Educational Supervisor & General Dental Practitioner

During this session Mark will aim to explore various aspects of Full & Partial Denture Planning & Provision. This will include:

- Marine L
- anatomy & tooth suitability
- patient selection
- treatment planning
- denture design, impression taking & bite registration
- lab liaison
- Maintenance
- modifications & additions
- when to remake

Coupled with this - Mark will aim to discuss common denture problems & solutions.

Objectives

This speaker will:

- demonstrate efficient patient examination and selection
- Describe effective partial and full denture design
- Demonstrate the principles and theory of good impression techniques

Learning Outcomes

Following this session Foundation Dentists will be able to:

- take successful impressions
- record the bite accurately
- set up the occlusion in full & partial dentures

DFT Competency Framework elements covered: Clinical 1, 2, 11

Friday 9th March

Ipswich PGME

CPD = 6 Hrs

Morning & Afternoon Sessions

09.30

Advanced Composite Techniques Nick Barker

GDP & DFT ES

A single day hands-on course designed to give delegates the skills and knowledge to place highly aesthetic, long term and functional composite restorations in a predictable, efficient format. The course is designed to allow candidates to improve their scientific and technical knowledge needed to place composite restorations in their clinical workplace.

- Case Assessment
- Shade Selection
- Cavity Preparation
- Anterior Composite form and function
- Predictable Aesthetic Bonding
- Posterior Composite form & function
- Natural Layering technique

Aims & Objectives

The speakers will:

- Describe the importance of direct composite in modern day dentistry.
- Explain how composite can be used restoratively with respect to function and aesthetics.
- Demonstrate how to manipulate composite in order to achieve excellent functional and aesthetic outcomes.
- Evaluate your 'hand skills' and technical ability with composite.

Learning Outcomes

Following this session delegates will be able to:

- Formulate successful patient treatments utilising composite as a restorative material.
- Describe efficient cavity preparation and composite bonding.
- Demonstrate the efficient use of composite as a direct restorative material.

Friday 16th March

Ipswich PGME

Morning & Afternoon Sessions

CPD = 6 Hrs

09.30 Clinical Audit Presentations

Each FD must complete a clinical audit within their practice. The audit can be based on any reasonable topic. It would be desirable for the Educational Supervisors to closely assist the FD with this task.

• YOUR TOPIC MUST BE APPROVED BY JASON STOKES.

• THERE MUST BE TWO CYCLES OF THE AUDIT.

Aims & Objectives

This session will give the whole group a greater understanding of Clinical Audit. It will enable us all to grasp how others have approached Audit in their own surgeries—and offer constructive feedback to improve their future efforts.

It will also give the FDs a chance to test their PowerPoint and presentation skills prior to the end of the Summer Term when they will present their Case Presentation in a similar fashion.

Learning Outcomes

Following the session the FDs will: be able to

- Design and implement their own Clinical Audits.
- Meet their ethical and contractual guidelines for Clinical Governance (as it relates to the provision of Clinical Audits).
- Improve their own performance by reflecting in a structured manner using the tool of clinical audit.

01.45 Foundation Skills Project Presentation

Objectives

This session will assess your work on the Foundation Skills Project. The project is your own work to demonstrate sound knowledge in broad topic areas, and essential skills that are required by you as a dentist working in primary dental care. The Scheme Educational Supervisors will assess the final 12 topics (plus any topics that needed improvement from the previous assessment).

DFT Competency Framework elements covered: Management & Leadership 19, 20, 22

The Educational Supervisors Meeting will be held at lunchtime today 12.45pm

This is the last day of term each FD will need to bring at least one ES

Thursday 22nd & Friday 23rd March

Stoke by Nayland

 ▼

Thursday Sessions

CPD = 5 Hrs

Transition to performer

Mr Nick Lamb

GDP and Dental Practice Advisor

Nick works as a general dental practitioner in Woodbridge and was previously a FD Educational Supervisor for 3 years in Norwich. He also works for HEE EoE and is actively involved in the selection process of FD Educational Supervisors, and is an assessor for FD equivalence training applications. Nick is a Dental Professional Adviser to the East Anglian Area team of NHS England and is the national secretary of the national Association of Dental Advisers and recently has been appointed as a Panel member for NICE.

Objectives

The speaker will:

- Describe how to become a good performer and how to stay ethical
- Explain how to work with UDA's and methods of payment
- Describe what to look for in a practice. NHS vs Private.

Learning outcomes

Following this session delegates will be able to:

- Explain the rules and procedures involved in the General Dental Services regulations.
- Describe what to look for when looking for a position in a practice

The Future of the NHS and the role of the BDA

Mr Richard Birkin

BDA Head of Advice Liaison and Development

Richard started his career as a GDP in NHS practice before moving to the BDA in 1986. He is also a former expert witness for the GDC covering Record keeping and NHS regulations.

Objectives

The speaker will:

- Describe the changes and process of NHS Contract reform to date and plans going forward
- Explain how these changes would effect a young dentist working in the NHS
- Describe the roles of the BDA both for individual advice and support and as a Union.

Learning outcomes

Following this session delegates will be able to:

- Describe how national contract and policy changes can affect your everyday practice.
- Explain how the BDA can help them individually.
- Recognize the National work carried out by the BDA as a union.

Thursday 22nd March

Stoke by Nayland

CPD = 5 Hrs

Thursday Sessions

Post FD Finance

Lovewell Blake's specialist dental team has acted for dentists, dental practices and foundation trainees for more than 20 years. Lovewell Blake has more than 300 dental clients across the UK.

The team is led by Simon De-Lacy Adams, a member of the National Association of Specialist Dental Accountants and Lawyers.

Objectives

The speaker will:

- Describe the financial implications of the difference between self employed and employed status, and the responsibilities these entail.
- Explain the UK tax system and how it will directly affect them. There will also be some recommendations on tax saving ideas

Learning Outcomes

Following the session delegates will be able to:

- Describe the tax advantages and disadvantages of being self-employed.
- Recognize the appropriate strategies for reducing their tax burden.
- Explain the range of pension and investment opportunities available to them.
- Recognize the need for insurance protection.

4.15pm - 7.30pm

Free time

The hotel has excellent facilities including a golf course and a spa visit the website for more information and contact details:

www.stokebynayland.com/

7.30pm

Dinner

Friday 23rd March

Stoke by Nayland

CPD = 5 Hrs

Friday Sessions Owning a Dental Practice

Payal Sharma

Objectives

The speaker will:

- Explain the personal and financial implications of becoming a business owner
- Describe the journey of becoming a practice owner
- Identify the key challenges associated with practice ownership

Learning Outcomes

Following this session delegates will be able to:

- Define the rewards vs challenges of being a Principal vs an Associate
- Describe the process of buying a practice and how to successfully run it.
- Assess the suitability of practice ownership.

Portfolio Careers

Tom Norfolk

General Dental Practitioner, Educational Supervisor, Chair of the LPN & Dental Professional Advisor

In addition to working as General Dental Practice owner and performer, Tom works as a DFT Educational Supervisor, Dental Professional Advisor for NHSE and is the Chair of the Local Professional Network.

Objectives

The speaker will:

- Describe the non clinical roles available in the field of Dentistry
- Explain the pathways of entry into these roles
- Describe the advantages of a portfolio career

Learning Outcomes

Following the session delegates will be able to:

- Identify the value of supplementing your clinical career with other roles
- Describe the variety of additional roles and how they can fit in alongside you clinical responsibilities.
- Differentiate between the various non clinical roles available

Friday 23rd March

Stoke by Nayland

CPD = 5 Hrs

Friday Sessions

Community Dental Services

Ganga Allen

Specialist in Special Care Dentistry

Ganga is an Educational Supervisor on the Norwich scheme. She qualified in London in 1991 and completed her FD year during 1992. Since then she has gained a broad experience of dentistry working in general dental practice, the Community Dental Service and the Hospital Dental Service. She completed her MSc.(Lond) in 1995 and has a PGCert in Dental Education. She is a Specialist in Special Care Dentistry and thoroughly enjoys the variety of her working week.

Objectives

The speaker will:

- Explain the role of the Community Dental Service
- Describe the career opportunity in the Community Dental Service

Learning Outcomes

Following this session delegates will be able to:

- Identify the role of the Community Dental Service .
- Recognize career pathways in the Community Dental Service
- Evaluate the suitability of a role in the Community Dental Service compared to their skills set

Specialist Pathways

TBC

Objectives

The speaker will:

- Provide an overview of Dental Specialty Training in the UK
- Discuss career development and personal development plans to prepare for applications to specialist training
- Describe the recruitment processes for Dental Specialty Training

Learning Outcomes

Following the session delegates will be able to:

- Recognize the options available to dental postgraduates
- Explain the application processes now being implemented across the dental specialties
- Formulate a personal development plan to enable strong applications for Specialty Training
