## Venues and Subjects

**Friday 27th January**

Clinical Audit Presentations

Tooth Wear and Periodontal Disease Management

*Clinical Skills Laboratory, Learning Centre, Peterborough City Hospital*

**Friday 3rd February**

Hands-on Endodontics

*Clinical Skills Laboratory, Learning Centre, Peterborough City Hospital*

**Wednesday 8th February**

Hands on Restorative Dentistry

*Clinical Skills Laboratory, Learning Centre, Peterborough City Hospital*

You're Hired finding and getting the right job for you.....

*Denis Bracey Room, Learning Centre, Peterborough City Hospital*

**Friday 10th February**

BDA Careers Day

*America Square, London*

**13th—17th February**

Practice Exchange

**Friday 24th February**

Paediatric Dentistry

Careers in the Community Dental Service

Orthodontic Treatment Referrals

*Room 1, Learning Centre, Peterborough City Hospital*

**Friday 3rd March**

Four Handed Dentistry

Recording the occlusion using a facebow and functional articulator.

*Clinical Skills Laboratory, Learning Centre, Peterborough City Hospital*

**Friday 10th March**

Prevention of Back Problems for Dentists

*Denis Bracey Room, Learning Centre, Peterborough City Hospital*

Prosthetic Considerations

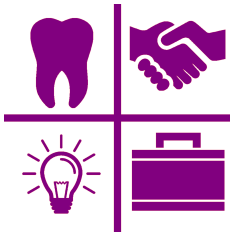

*Clinical Skills Laboratory, Learning Centre, Peterborough City Hospital*

**Friday 17th March**

Anterior Composites

Foundation Skills Assessment

*Denis Bracey Room, Learning Centre, Peterborough City Hospital*

# Spring Term

## Coursework Deadlines

Audit Presentation	Friday 27th January
Second 12 Foundation Skills Topics Submission	Friday 3rd March
Case Presentation Submission	Friday 19th May

## Important Dates

Spring Term Mid Year Practice Visits	2nd—20th January
Wyboston Residential	11th—12th May
BDA Conference	Thursday 25th May - Saturday 27th May
Last Study Day	7th July

# Friday 27 January

Clinical Skills Laboratory, Learning Centre

## Morning Session

CPD = 3 Hrs

### 09.30 Clinical Audit Presentations

#### Mr. Uday Patel.

Training Programme Director (TPD)

#### Preeti Bose

Educational Supervisor

*All FDs will have completed their clinical audit in their training practice and this morning will be the presentation day for our group.*

*Every FD must produce a PowerPoint presentation that lasts between 10-12 minutes. The purpose of undertaking the clinical audit and presentation is for everyone to learn about audits from their own work and also from the work of others. In addition clinical audit is a satisfactory completion requirement for DFT.*

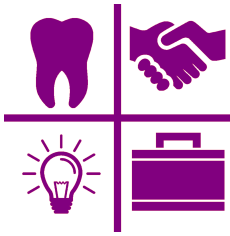

#### Objectives

- *Each foundation dentists to complete a clinical audit project in their practice .*

#### Learning outcomes

- *Can show application of the principles of Clinical Audit in Training Practice.*
- *Complete a clinical audit on a topic demonstrating use of this tool to improve the quality of clinical work.*

### 12.30 Lunch

# Friday 27 January

Clinical Skills Laboratory, Learning Centre

## Afternoon Session

CPD = 3 Hrs

14:00

### Tooth Wear and Periodontal Disease

**Paula Reid.**

Gsk

*This will be a session talking about the various options for managing tooth wear and periodontal gum disease.*

#### Objectives

- *To cover the full range of products available to help manage tooth wear and help control periodontal gum disease.*

#### Learning outcomes

- *To know about the aetiology of tooth wear, know about the risks and patient management.*
- *To be aware of signs and symptoms of periodontal gum disease, describe the aetiology and be able to identify and manage periodontal disease for general practice.*

## Day Session

CPD = 6 Hrs

### 09.30 Endodontics for FDs

**Mr. Shashi Mishra.**  
Specialist Endodontist

*This is a follow up session on the key principles and rationale for endodontic patients for DFTs and a look at Endodontic workflow in General Practice and further review of chemo-mechanical preparation and obturation of the root canal system*

#### Objectives

- *Appreciate the biological rationale underlying root canal treatment and how the treatment process reflects this rationale*
- *Understand the role of instrumentation and decontamination in successful root canal treatment*
- *Understand the difference in efficiency in hand and rotary canal preparation*

#### Learning outcomes

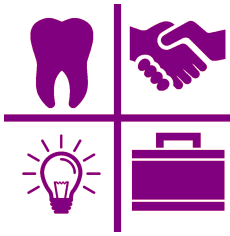

*At the end of the course it is intended that DFTs will be able to :*

- *Understand the importance of consistent examination, diagnosis and treatment protocols*
- *Understand the importance of efficient endodontic workflow in clinical practice*
- *Be aware of current instruments and materials for chemo-mechanical preparation and then obturation of the root canal system.*

#### Items to bring for this session:

1. Loupes
2. Extracted teeth with access cavities
3. Any cases/Radiographs you wish to discuss

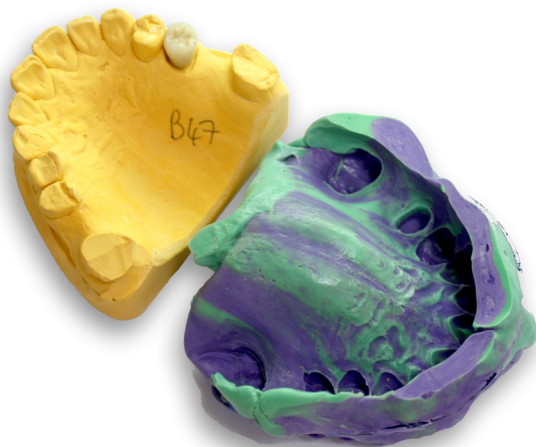

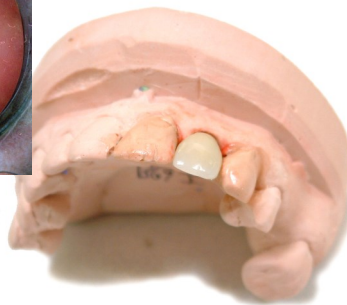

# Wednesday 8 February

Clinical Skills Laboratory, Learning Centre

## Day Session

CPD = 6 Hrs

### 10:00 Hands on Restorative Dentistry.

#### Mr. Khalid Malik.

Consultant—Restorative Dentistry

Today's hands-on session will cover the following areas :

- reviewing the appropriate indications for full veneer crowns
- understanding the effects of crown preparation of vital teeth
- Understanding the principles of resistance and retention of indirect restorations
- demonstrating and practice the preparation of teeth to receive full coverage crowns
- reviewing the requirements for and purpose of provisional crowns
- demonstrating and practice techniques for making reliable provisional crowns
- understanding how to assess the quality of full veneer crown preparations

#### Objectives

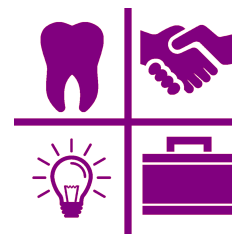

- To provide Foundation Dentists the opportunity to practice Clinical Skills in relation to advanced restorative procedures.

#### Learning outcomes

- You will be able to evaluate and prepare teeth requiring advanced restorative treatments.
- By the end of the session delegates should have a better understanding of the fundamentals of restorative dentistry.
- You will know more about how to restore teeth to form, function and appearance using appropriate indirect restorations.

# Wednesday 8 February

Denis Bracey Room, Learning Centre

## Evening Session

CPD = 2 Hrs

18:00

### You're Hired finding and getting the right job for you.....

#### Mr. Jason Stokes

TPD & Dental Tutor Ipswich, &GDP

*This joint FD/Section 63 meeting aims to help delegates to get a foot onto the increasingly slippery job ladder. It will help delegates identify the "right" position – and give them insight into the kind of candidate the employer might be searching for.*

#### Objectives

*This session will:*

- *Provide an overview of the current dental job market.*
- *Examine the changes to the dental job market*
- *Explore the strengths & Weaknesses that each candidate may possess*
- *Assess the strength of job offers & the language used to describe them*
- *Demonstrate strategies to efficiently market yourself*
- *Explore the attributes of an effective team member challenges*

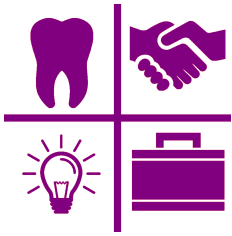

#### Learning outcomes

*On completion of this evening session you will be able to:*

- *Understand the changes to the dental market*
- *Consider your own strengths & weaknesses effectively*
- *Accurately assess the quality of a job offer*
- *Locate job offers before they are advertised conventionally*
- *Apply for the offered roles as effectively as possible*
- *Understand the attributes that a good long term team member should possess*

Please note:

CPD certificate for this session will be issued on completion of on-line evaluation.

# Friday 10 February

14:45 – 15:15 REFRESHMENTS AND EXHIBITION TIME			
15:15 – 15:45 FINAL PARALLEL SESSIONS			
<b>Room 1: Ludgate</b> CPD PDPs – plan to succeed (Janine Brooks)	<b>Room 2: Aldgate</b> The only way is ethics (Thomas O'Connor)	<b>Room 3: Fleet</b> Working for a corporate (Andy White)	<b>Room 4: Walbrook</b> Financing a course
16:00 – 16:30 AFTERNOON PLENARY SESSION			
<b>Room 1: Ludgate</b> Representation and your career – taking part and adding value (Nick Stolls)			

# 13—17 February

## Practice Exchange

2 sessions

CPD = 3 Hrs each visit

### Practice Exchanges

### FDs & ESs

*As soon as possible, all FDs should involve their own ES and then talk to each other and form groups of three. Each FD with their ES will be the host to their Practice at a convenient time of day and date to all concerned.*

*ESs are required to visit one other practice and carry out a Buddy ADEPT for the Host FD.*

*You are advised to allocate three separate days, one when you as the FD host and another two when you visit. When hosting, allow the equivalent of 3—5 hours of your time for this purpose, the rest will be normal clinical hours without the presence of visitors.*

*When visiting, factors such as the travel time required should be taken into consideration. I would therefore suggest visiting FDs who are going to be present for half a day may be best advised not to return to their own practice to treat patients if time does not allow. In summary, visits take place over three separate days. Host FDs continue to treat patients, whilst visiting FDs require travel considerations.*

*You will be required to report on the visit you have carried out. Instructions on producing this report will be provided separately to this programme.*

1. Please notify the Dental Administrator of dates prior to the visits.
2. All visits to be completed by end February 2017
3. Reports must be submitted by Friday 3rd March 2017 to the TPD

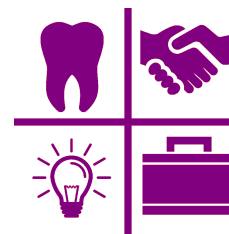

### Learning outcomes

- Find out how the practice you visit works differently from yours, and report the differences.
- Learn by observing a colleague (FD and their ES) treat their patients. This may be a new technique, style of patient management, communication skill etc.

Host FD	Visiting FDs
1	2 & 3
2	1 & 3
3	1 & 2

# Friday 24 February

Room 1, Learning Centre

## Morning Session

CPD = 3 Hrs

### 09.30 Paediatric Dentistry

#### Julia Hallam-Seagrave.

ES & General Dental Practitioner

*The session will be an interactive exploration of issues regarding paediatric treatment planning.*

#### Objectives

- *There will be a presentation and group discussion on the types of paediatric patients that general practitioners treat in the general practice setting.*

#### Learning outcomes

- *Be able to formulate a treatment plan for paediatric patients*
- *Be able to critically appraise treatment options for paediatric patients*

### 11.15 Careers in the Community Dental Service

#### Maria Ross-Russell.

ES & General Dental Practitioner

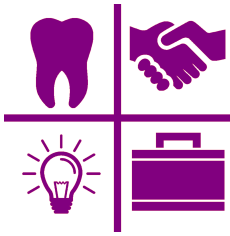

*This part of the afternoon will be devoted to help FDs understand the career possibilities within the Salaried Services.*

#### Objectives

- *To provide information on the various career options open for Foundation Dentists in relation to community dentistry.*

#### Learning outcomes

- *To know about the career options within the Salaried Services*

# Friday 24 February

Room 1, Learning Centre

## Afternoon Session

CPD = 3 Hrs

### 13.30 Orthodontic Treatment Referrals

**Mr Mark Bainbridge.**  
Consultant Orthodontist

*The session will cover basic examination and diagnosis of the orthodontic patient, how to recognise when referral to an Orthodontic Specialist is warranted, the difference between Specialist Orthodontic Practice and the Hospital Orthodontic Service and the cases suitable to be referred to each, and an introduction to the Orthodontic Indices to ensure appropriate referral and concise transfer of information.*

#### Objectives

- *How to assess an orthodontic patient in a logical, systematic manner*
- *Illustrate the use of orthodontic indices to assist the transfer of information*
- *Examples of cases treated in Specialist Practices and Hospital Departments.*

#### Learning outcomes

- *Recognise patients requiring orthodontic referral.*
- *Accurately assess and record the most important aspects of a malocclusion concisely*
- *Differentiate cases requiring referral to Specialist Practice and Hospital.*

## Morning Session

CPD = 4.5 Hrs

### 09.30 **Four Handed Dentistry**

#### **Preeti Bose**

Educational Supervisor & GDP

#### **Rachel Welshman**

Dental Nurse

*To improve efficiency of working*

*Maintain undisturbed contact and focus on your patient*

*Give your patient the ultimate dental experience*

*Harness good posture for you and your nurse*

*Work with improved vision and less stress*

*Develop nonverbal/verbal communication between dentists and nurse.*

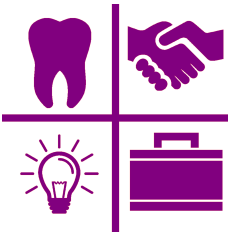

#### **Objectives**

- *Identify the basic skills of four-handed dentistry*
- *Identify the basic zones of activity*
- *Explain why the concepts of true four-handed dentistry can increase productivity*
- *Identify positive phrases to implement positive attitudes toward change*
- *Understand the most effective ways to deliver dentistry*
- *Understand how the concepts of four handed dentistry and ergonomics can make an improvement in both clinical and business areas of the dental practice*

#### **Learning outcomes**

- *A deeper understanding of the causes and triggers for both mental and physical stress in dental personnel*
- *Ability to work more efficiently and comfortably improving patient outcome.*
- *Extended duties of the dental nurse to improve job satisfaction and reducing tensions in the surgery environment.*

# Friday 3 March

Clinical Skills Laboratory, Learning Centre

## Afternoon Session

CPD = 1.5 Hrs

### 15:00 Recording the occlusion using a facebow and functional articulator

#### Robert Horseman

Educational Supervisor & GDP

*To understand when the recording of the occlusion using a facebow is required and why we need it.*

#### Learning outcomes

- *Learn how to record the occlusion using a facebow, and how to translate that record to a functional articulator.*

# Friday 10 March

Denis Bracey Room, Learning Centre

## Morning Session

CPD = 3 Hrs

### 09.30 Prevention of Back Problems for Dentists

#### Mr Craig Hendy.

Clinical Specialist Physiotherapist

*It is not uncommon for Dentists to suffer muscular-skeletal problems particularly back issues.*

*This morning will be very much about how to prevent these issues occurring in the first place.*

*This session will be provided by a physiotherapist from Peterborough City Hospital.*

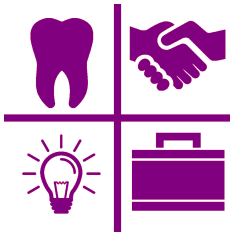

#### Objectives

- *To demonstrate and instruct on numerous exercises suitable for dentists.*

#### Learning outcomes

- *The FD will know about the different forms of exercises that can help prevent back problems for the future.*

# Friday 10 March

Clinical Skills Laboratory, Learning Centre

## Afternoon Session

CPD = 3 Hrs

### 13.00 Prosthetic Considerations

#### Mr. Kevin Chau.

General Dental Practitioner and University Lecturer

*Prosthetic work in general practice can prove very difficult for some people. The range of denture problems that may be encountered is enormous, and much patience and skill is demanded. There is no doubt that experience does help enormously, but nevertheless, there are many techniques that can be used in practice that are rarely discussed within Dental School. Rebuilding and refurbishing of existing dentures is sometimes the only way forward for some patients, yet the techniques to do this need to be learned. Likewise, good communication with the dental Technician is an essential part of the process.*

#### Objectives

- *The session aims to cover some of the common prosthetic difficulties covered in practice.*

#### Learning outcomes

- *You will be able to gather relevant information and formulate a diagnosis, prognosis and treatment plan for patients requiring removable prosthodontic treatment.*
- *You will be able to evaluate residual ridges and abutment teeth to support and retain removable prosthodontic appliance.*

# Friday 17 March

Clinical Skills Laboratory, Learning Centre

## Morning Session

CPD = 3 Hrs

09:30

### Anterior Composites

#### Amiras Chokshi

Educational Supervisor and General Dental Practitioner

#### Shivam Patel

General Dental Practitioner

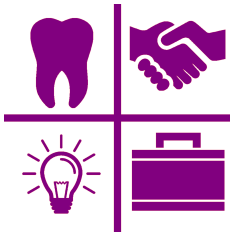

*This will be a hands-on session on anterior composite restorations further details will be provided nearer to the time.*

#### Objectives

- *Science of composites - basic theory and relevance to real life situations Colour and Shade taking - how to predictable take an accurate shade Rubber Dam - why use it*
- *Bonding - bonding procedure Instruments - which instruments to use Natural Layer techniques - stages involved in constructing the tooth using putty index Anatomy - key features*
- *Finishing and Polishing - stages involved*

#### Learning outcomes

- *The FDs will be able to improve clinical skills that are required for high quality anterior composites.*

# Friday 17 March

Denis Bracey Room, Learning Centre

## Afternoon Session

CPD = 3 Hrs

14.00 **Foundation Assessment.**

### All Educational Supervisors

*This is a chance for us to look closely at the foundation skills portfolios we have produced during this term and have them carefully assessed by the ESs. This process gives validity to our work and is an important part of demonstrating satisfactory completion of the Training year.*

*This will be a practical peer review session involving everyone in the process.*

#### Objectives

- *To provide feedback on the Foundation Skills Project work completed by the FDs with a view to improvements.*

#### Learning outcomes

- *Satisfactory completion of Foundation skills project demonstrating competencies in a variety of professionalism, management and leadership elements of the curriculum.*

## Review of Second Term.

### All Educational Supervisors

*There will be discussion on a review of the first 6 months in practice so that preparation can be made for the final 6 months.*

#### Objectives

- *Exercises to discuss FDs progress.*

#### Learning outcomes

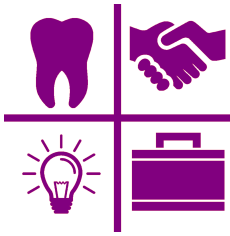

- *To reflect on the delivery of training so far and the outcomes achieved.*
- *To produce a training plan for the months ahead.*
