Friday 01st September

Lister Education Centre, Stevenage

Morning Session

CPD = 3 Hrs

09.30 Introduction to Dental Foundation Training.

Dr. Elinor Japp.

Training programme Director

Thus morning we will be looking at the nuts and bolts of DFT. How does it work? What does it entail? Why do you have to do it? What is Satisfactory completion? You will have lots of questions.....

You will also get to know the others in your group– you will be working closely together over the year.

Objectives

- *To introduce DFT*
- *To find out about all the members of the group*
- *To understand the day to day requirements and responsibilities of an FD*

Learning outcomes

- *A better understanding of what is required during DFT*
- *A better knowledge of the members in the group*
- *How to claim your expenses*

13.00 Lunch

Things to bring

Your laptop

A cheque for £80 made payable to 'East and North Hertfordshire NHS Trust'
or £80 cash

Friday 01st September

Lister Education Centre, Stevenage

Afternoon Session

CPD = 3 Hrs

14.00 Fun with the electronic portfolio.

Dr Elinor Japp.
Training programme Director

We will be looking at your electronic portfolio. This will be your record of all your achievements, challenges, failures and successes. Maintaining the portfolio is a requirement for satisfactory completion.

Objectives

- To introduce the portfolio, assessments and logs

Learning outcomes

- A basic working knowledge of the portfolio and how to fill it in.

15.15 NHS rules and regulations—University Challenge

The 2006 NHS General Dental Services contract determines how we deliver dentistry and are funded within the NHS. The rules and regulations are complex and it is our responsibility to know them and understand the implications completely.

How well do you understand UDAs? What is the 2 month rule? What can you do under the NHS and what is only available privately?. Your patients will expect you to know this. How ready are you?

Objectives

- To gain insight into NHS rules and regulations

Learning outcomes

- To fully understand your own level of knowledge of NHS rules and regs
- To understand your responsibilities

Wednesday 06th September

Practice-based

Day Session

CPD = 6 Hrs

09.30 Back to basics—drill fest

Educational Supervisors

For some of you, the last time you picked up a handpiece and treated a patient may feel like a long time!

Even with short breaks from clinical work there is a element of 'deskillng' and this can cause apprehension and loss of confidence when faced with starting practice.

Today is all about regaining your confidence and recognising areas where you may feel you wish to hone your skills further before carrying out procedures on patients.

Your trainers will have made models with extracted teeth for you to work on. There will be a series of basic tasks working with amalgam and composite for you to complete. You can discuss these with your ES/trainer and your peers.

You will also be placing rubber dams and taking impressions so be prepared to be a patient and a dentist.

Objectives

- *To refresh your clinical skills and identify areas for development*
- *To build your confidence before treating patients.*

Learning outcomes

- *A better knowledge of your basic skill set – strengths and weakness.*
- *A better understanding of what to look for when looking for a position in a practice..*

Thursday 07th September

Novotel Stevenage

Residential

09.30

Novotel, Stevenage
Knebworth Park, Stevenage SG1 2 AX
0207 660 0687

The residential is a 2 day event for FDs. You will be staying overnight and single room accommodation has been booked for you.

You will need to let us know in advance of any specific dietary requirements so that these can be accommodated.

There is an outdoor swimming pool for the brave.

The Trainers will be joining us on Thursday evening for a trainer meeting at 6pm and will be staying for dinner. We will all be working together on Friday.

The cost of the residential is £80 which you should have paid on the first day of term. This money can be reclaimed in full.

Thursday 07th September

Novotel, Stevenage

Morning Session

CPD = 3 Hrs

09.30 **Project work in the DFT year.**

Dr. Elinor Japp.
Training Programme Director

Dr. Shaker Zaman.
General Dental Practitioner

Throughout the year there are projects to be completed. Today we will be looking at them in detail, so that you can plan your schedule and get the most out of them.

Case presentations

Foundation skills

Reflective practice

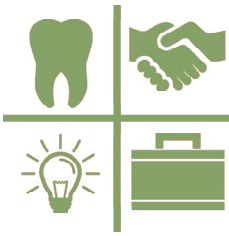

Clinical Audit

Objectives

- *To understand the project requirements for DFT.*

Learning outcomes

- *To be able to identify a suitable case presentation and know how to present this at the end of the year.*
- *To understand the requirements for Foundation Skills-how to plan and present*
- *To have a greater understanding of what is meant by reflection and reflective writing*
- *To know the basic principles of clinical audit and be able to design and produce a clinical audit*

Thursday 08th September

asar, Hemel Hempstead

Afternoon Session

CPD = Hrs

14.00 **Effective Communication**

Dr, Payal Sharma-Birch

Communication is key to delivering successful dentistry and having well informed, compliant patients who will value and look after your work..

This term we will be looking at how this becomes a reality in a busy practice environment. This interactive session looks at difficulties you may well encounter during DFT You will look at effective strategies to recognize and manage these situations.

Objectives

- *To explore difficult situations in practice.*
- *To practice different types of communication*
- *To learn more about each others communication styles*

Learning outcomes

- *Knowledge of a range of communication strategies*
- *Be able to obtain and record valid informed consent from patients*
- *Greater confidence in managing difficult situations*

Dinner: 7 for 7.30pm

Morning Session

CPD = 3 Hrs

09.30 **Building Effective Relationships in Practice: Achieving high performance teams**

Dr. Elinor Japp.

Training programme Director

The morning session will focus on aspects of the trainer/ES relationship and how we can work effectively together during the year.

What can we and should we expect of trainers and FDs? What can we achieve together? What are your responsibilities to each other? What is the ideal ES and FD?

All relationships need commitment and hard work. What happens if things start to go wrong? How can you manage these situations well?

During the year there are assessments and tutorials. How can you plan these effectively?

Objectives

- *To understand roles, responsibilities and expectations in the ES/FD relationship*
- *To find out about all the members of the group*
- *To understand the day to day requirements and responsibilities of an FD*

Learning outcomes

- *A better understanding of what is required during DFT*
- *A better knowledge of the members in the group*
- *How to claim your expenses*

13.00

Lunch

Friday 08th September

Novotel, Stevenage

Afternoon Session

CPD = 3 Hrs

14.00 The NHS Constitution.

**THE NHS
CONSTITUTION**
the NHS belongs to us all

15.00

Dr. Beejal Patel.

General Dental Practitioner

What is the NHS Constitution? What does it mean to us and our everyday working lives?

Objectives

- To introduce the NHS Constitution

Learning outcomes

- To understand what is meant by the NHS Constitution and how to apply this in practice.

Teamwork and the Art of Feedback

Dr. Elinor Japp.

Training programme Director

You will be given a practical task to achieve with your trainer. How well do you work together? What sort of feedback do you give to each other? How do you participate and how are the decisions made?

Objectives

- To work with your trainer
- To experience different types of feedback

Learning outcomes

- To understand the different types of feedback and their relative merits
- To understand how to give and receive effective feedback

Morning Session

CPD = 3 Hrs

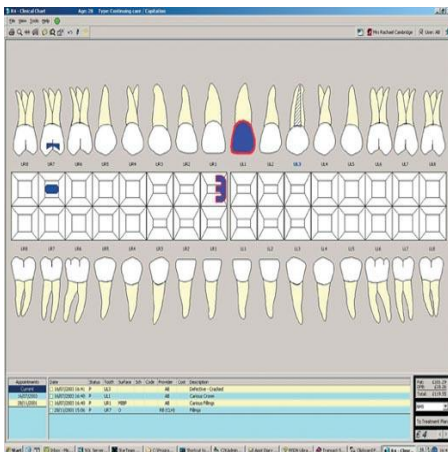

09.30 Ethics in Essex

Mr. Bryan Harvey
Dental Defence Union

What are your ethical and legal responsibilities as a professional person? What are the pitfalls and consequences if things go wrong?

How do indemnity companies work? How and when can you ask for support? What actually happens

Clinical record keeping is a requirement and a skill. How should this be done properly and why is it so important? How does your current standard match up to the ideal? What is best practice and how can you achieve this?

Objectives

- To explore the medicolegal framework underpinning dental practice
- To discuss ethical behaviour of professional people
- To identify best practice for clinical record keeping

Learning outcomes

- To gain better understanding of the medicolegal structures and systems
- To realise the responsibilities of being a professional person
- To understand the role of dental indemnity companies
- To understand the requirements for clinical record keeping and be able to critique your current standard

13.00 Lunch

Friday 15th September

Lister Education Centre, Stevenage

Afternoon Session

CPD = 3 Hrs

14.00

Managing Complaints

Mr. Bryan Harvey.
Dental Defence Union

No matter how conscientious we are as practitioners, we will all, at some time in our careers, receive a complaint.

Every practice must have a complaints procedure. There are also many other avenues through which a patient can complain or pursue a complaint if they feel the complaint has not been appropriately handled.

The way a complaint is dealt with is very important for everyone involved. The quality of complaints handling will significantly influence the outcome for all parties.

Complaints are an opportunity to look carefully at our practice and reflect on where our systems failed. They are an opportunity to learn.

Objectives

- *To investigate the common factors leading to dental complaints*
- *To look at complaint management pathways*
- *To discuss the best ways of mitigating and dealing with dental complaints*
- *To be aware of the do's and don'ts when dealing with complaints*

Learning outcomes

- *To be better able to recognise and avert potential complaints*
- *To feel confident in the process of managing complaints effectively*
- *To know what support you can and should access when dealing with a complaint*
- *To understand the role of indemnity providers*

Thursday 28th September

King's House, Bedford

Morning Session

CPD = 3 Hrs

09.30 Clinical Photography

Dr. Peter Cranfield Regional Advisor

This is a joint study day with the Bedford DFT scheme.

Bring along your cameras and a laptop.

It is your turn to find out how to record for posterity your patients 'before and after' moments, their problems and your solutions.

However capturing the image is only part of the process.

What are the principles of good photography and how can you apply them practically?

What sort of camera do you have and what might you be able to achieve? What sort of kit is ideal for dental photography?

In the practical session you will be able to hone your clinical photography skills and try out a variety of cameras.

Objectives

- *To explain basic photographic principles*
- *To learn how to take clinical photographs*
- *To understand how to use your camera effectively*

Learning outcomes

- *A better understanding of photographic principles and how to apply them*
- *Techniques for improving intraoral photography*
- *Appropriate consent for photography and associated data protection*
- *Improved photographic skills and ability to critique your work*

13.00

Lunch

Thursday 28th September

King's House, Bedford

Afternoon Session

CPD = 3 Hrs

14.00

Clinical Photography

Dr. Peter Cranfield.

Regional Advisor

Can you believe what you see?

Once you have your image, there are tools to manipulate and enhance these in many ways. Processing and preparing an image can turn a shocker into a masterpiece so the skills of photo editing are important to learn.

You then need to be able to present your work: to patients, colleagues, for postgraduate education or examinations.

In this session you will be developing your presentation skills. You will be using commonly available software to develop a presentation from first principles.

Objectives

- *To explore basic photo editing techniques*
- *To understand basic presentation principles*
- *To produce a Power point presentation*
- *To present to colleagues*

Learning outcomes

- *To understand how to enhance and manipulate clinical photographs using photo editing software*
- *To have greater understanding of how to create effective presentations*

Venue

King's House
245, Ampthill Road
Bedford MK42 9AZ

Car Parking

There is ample free parking at the venue

Bring your camera and a laptop

<https://www.kingshousebedford.org/>

Morning Session

CPD = 3 Hrs

09.30 **Effective team working with your dental nurse**

Dr. Elinor Japp

Training program Director

Research shows that the relationship between and FD and their dental nurse will have a significant impact on the learning during DFT. This can be positive or negative, so it is important to lay solid foundations early on in the year.

What are your responsibilities towards each other? What is the role of an FD DN and how is this different? How can you optimize your working relationship?

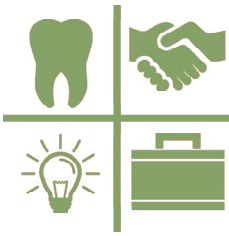

Objectives

- *To discuss the roles and responsibilities of FDs and DNs*
- *To consider how to build good team working*
- *To explore patient safety issues in dentistry*

Learning outcomes

- *Understanding of the role of the FD DN*
- *How to create a good working relationship and tackle problems effectively*
- *Understand why errors happen and how to take appropriate action*

Bring your dental nurse

Friday 06th October

Lister Education Centre, Stevenage

Afternoon Session

CPD = 3 Hrs

14.00 **Managing Anxious Patients**

Ms. Amy Schiller.

Special Care dentist, Suffolk Community Services

In this session you will be thinking about how to manage your most anxious patients.

This challenging group, if managed successfully can become your greatest allies and most loyal patients. How do you approach these situations? What techniques can you employ. How can you manage these patients successfully within the NHS general dental practice setting and when is it appropriate to refer?

Objectives

- *To provide an overview of the causes and management of anxiety in dental patients*
- *To consider the role of the team in managing anxious patients*
- *To consider the use of dental anxiety scales*

Learning outcomes

- *To recognize dental anxiety and be aware of anxiety measurement and evaluation.*
- *To understand the variety of techniques and skills required to manage anxiety successfully*
- *To appreciate the role of the dental nurse and the wider team in anxiety management*
- *Better leadership skills*

Bring your dental nurse

Friday 13th October

Lister Education Centre, Stevenage

Early Stage Review Reports and Interviews

Preparation

With the introduction of Satisfactory Completion for Dental Foundation Training there are various points throughout the year where your progress is formally documented.

The first point is the Early Stage Review. This is to identify any issues with the practice, the ES/FD relationship, clinical or pastoral concerns.

You will have a 20 minute 1:1 interview with the TPD on Friday 13th October. This is your opportunity to share any concerns you may have at this early stage in the year.. Experience shows that problems identified and managed early have much better outcomes.

The discussion with the TPD is confidential and information may only be shared with the consent of the FD.

Requirements for ESR

- Your portfolio must be complete
- All DOPs and assessments completed
- Logs– tutorials, study days, reflections, clinical activity and experience completed
- Learning needs identified
- Documents uploaded
- Reports from the FD and ES—All information is shared and available to be seen on the portfolio.

Deadline for report completion: 06/10/2017

Objectives

- To discuss your placement
- To evaluate and review your progress
- To identify areas for development
- To ensure a good work-life balance
- To address any concerns you may have

Friday 13th October

Lister Education Centre, Stevenage

Morning Session

CPD = 3 Hrs

09.30

Treatment planning and ESR Interviews

Trainers

Stevenage Scheme

When our patients seek our advice, we devise treatment plans. These can be very simple or highly complex. So how do we tackle the difficult ones? What do we need to consider? What processes and pathways lead to our conclusions and how do we justify and evidence these?

Today you will be working with trainers looking at treatment plans they have carried out. You will be able to discuss the 'hows' and 'whys' of their case management and the success, or otherwise, of the outcomes.

Objectives

- *To explore the principles and practicalities of successful treatment planning*
- *To treatment plan some complex cases*
- *To identify factors affecting treatment planning decisions*
- *To understand the importance of record keeping and consent for treatment planning*

Learning outcomes

- *A broader understanding of holistic treatment planning*
- *Better ability to explain treatment plans to patients*
- *Increased confidence in offering a variety of treatment options to patients*

ESR Interviews

During the morning session you will have a 1:1 interview with the TPD to discuss your progress to date and any issues you would like to raise.

Friday 13th October

Lister Education Centre, Stevenage

Afternoon Session

CPD = 3 Hrs

14.00

Finance

Department		1 - Director		Payroll Month: 01/10		Payroll Date: 01/10	
Salary	1.00	3000.00	2000.00	Basic Pay	2000.00	2000.00	2000.00
Expenses	1.00	10.00	10.00	Optical Insurance	20.00	20.00	20.00
				Professional Salary	10.00	10.00	10.00
				Union Christmas Fund	1.00	1.00	1.00
				Superannuation	100.00	100.00	100.00

				Net Pay	1869.00	1869.00	1869.00
				Other Payments	100.00	100.00	100.00
				Final Total	1969.00	1969.00	1969.00
5	21/08/2008	1		599P	1	Miss F. McQuiry	2008

Mr. Bim Fazackerley

Taylor Roberts ACcountants

We all get a pay slip every month but how do we know if they are right? What are the deductions for and what is a tax code? How much should you be paying? What is superannuation-is it worth it?

Today you will have a chance to go through your pay slips and discuss what everything really means, which expenses are tax deductible and how you can claim your allowances.

You will find out about the types of insurances available and what they are for - what you might want to consider now and what you will need in the future.

Many of you will have invested heavily in your education and have student loans to pay off yet you need to provide for the future. How can you best juggle your personal finances, balancing savings and debts?

Objectives

- To understand your payslip
- To understand your tax code, deductions and superannuation payments
- To think about your personal financial situation and how to manage your money effectively
- To discuss HMRC and your tax liabilities

Learning outcomes

- A full understanding of how your pay is calculated and the relevant deductions
- Improved knowledge of HMRC and your tax position
- Ideas for managing and improving your finances

Please bring your payslip

Friday 20th October

Lister Education Centre, Stevenage

Day Session

CPD = 6 Hrs

09.30 Endodontics in practice

Dr. Shashi Mishra
Specialist Endodontist

This is the first of two hands-on sessions looking at root canal therapy. Endodontic treatment particularly in molar teeth can be very challenging.

How do we assess which teeth are likely to be successfully treated and what can we do to make the procedure easier for ourselves and the patient?

What should we attempt and when should we refer?

Bring examples of cases where you have experienced difficulties.

We shall go back to the basics and focus on the preparation and obturation of canals using blocks and extracted teeth.

Objectives

- *To discuss the challenges of endodontics in practice and how to overcome these*
- *To develop your hand filing skills*
- *To explore patient safety issues in dentistry*

Learning outcomes

- *An improved understanding of endodontic principles*
- *A better understanding of how to assess tooth prognosis and suitability for rct*
- *Improved endodontic technique*

Things to bring

Extracted teeth set up in plaster or crown putty. At least one single rooted, one premolar and two molar teeth

An example of one or more of your rct cases with radiographs

Thursday 26th or Friday 27th October

Day Session

CPD = 6 Hrs

09.30 Communication skills

Cascade Theatre Company

- On these two days, you will be working with FDs from the Bedford and Peterborough schemes
- You will have the chance to meet and interact with members of the other Schemes in a small group setting.
- Be prepared for an active and interactive day

Communication is one of our most important tools in general dental practice. We need to know what our patients want, feel, believe, wish for and fear. We need to be able to tell them about our plans, our hopes, our skills and our procedures. Good communication skills can change practising life beyond recognition. Today through the use of drama, Cascade will help us to improve these skills.

Objectives

- *To raise awareness of the importance of communication skills*
- *To look at clinician patient interactions*
- *To identify successful strategies to improve communication*

Learning Outcomes

- *Greater self awareness*
- *Improved strategies for communicating with vulnerable or difficult groups*
- *Improved conflict resolution*
- *Improved patient communication*

Cascade
THEATRE IN EDUCATION FOR CORNWALL

Thursday The Learning Centre, Peterborough
Friday Lister Education Centre

Half the scheme will attend on Thursday and half on Friday.

Check you know which day you are attending and manage your appointments in practice accordingly.

The Thursday group will travel to Peterborough.

The Friday group will meet at the Lister.

The Learning Centre
Peterborough City Hospital
Bretton Gate
Peterborough
PE3 9GZ

There is ample car parking on site. There is a fast and frequent train service from King's Cross. You would then have a 10-15minute taxi ride to the hospital.

Morning Session

CPD = 4 Hrs

08.45 **Emergencies in general dental practice: Emergency drugs and Basic life support**

A to E training Solutions

You will experience medical emergencies during your career. As a professional person, you will be expected and need to know how to manage these situations effectively. However, they are relatively rare so there is significant deskilling and our skills must be regularly reviewed and updated.

*It is expected that you will carry out BLS and medical emergency training within your practice during the DFT year **in addition** to this training.*

This session will look at

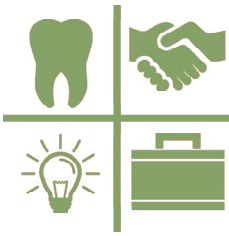

- *The types of medical emergencies most frequently encountered in practice*
- *The use of emergency drugs and your practice arrangements*
- *Basic life support*

Objectives

- *To be up to date with the management of medical emergencies in dental practice*
- *To be competent in BLS*
- *To know how to administer emergency drugs correctly*
- *To understand the role of team working in managing medical emergencies*
- *To understand the importance of record keeping and handover to paramedics*

Learning outcomes

- *To know current CPR guidelines and be able to perform effective BLS*
- *To know when and how to use emergency drugs correctly*
- *To work effectively as a team in managing medical emergencies*

Friday 03rd November

Lister Education Centre, Stevenage

Afternoon Session

CPD = 3 Hrs

14.00

Emergencies in general dental practice: Practical scenarios

A to E Training Solutions

This afternoon we will be putting into practice the work that we completed in the morning session.

You will be presented with medical emergency scenarios and be expected to manage the patient and the team to obtain a satisfactory outcome.

Objectives

- *Demonstrate the ability to assess a medical emergency and clear decision making pathways*
- *Demonstrate competency in BLS and managing a medical emergency*
- *Demonstrate effective leadership in a stressful situation*
- *Demonstrate good communication skills*

Learning outcomes

- *The ability to assess and manage medical emergencies effectively*
- *How and when to call for support*
- *Knowledge of emergency drugs: the location within your practice, the correct dosage and administration*
- *The importance of teamwork and your level of leadership skills*
- *The importance of accurate record keeping and ability to hand over to paramedics*
- *Insight into your current capabilities and Identify areas for future development*
- *An ability to critique your practice emergency procedures*

Friday 10th November

Learning Centre, Peterborough City Hospital

Morning Session

CPD = 3 Hrs

09.30

Oral Surgery

Wg Cdr Andy Gibbons

Consultant Oral and Maxillofacial Surgeon

Today you will be thinking about minor oral surgery procedures you can carry out in practice.

What makes extractions difficult? How can you identify potential problems and plan to meet unexpected outcomes?

What instruments do you use and why?

How do you do a surgical extraction? When should you attempt this and when should you refer?

You will be working on pig's heads to simulate surgical extractions.

Objectives

- *To practice raising flaps and surgical removal of teeth*
- *To practice different types of suturing technique*
- *To identify factors affecting treatment planning decisions*
- *To understand the importance of record keeping and consent for treatment planning*

Learning outcomes

- *Improved assessment of simple and complex exodontia procedures*
- *Strategies to deal with common complications during exodontia*
- *Increased confidence in surgical extractions*

Venue
The Learning Centre
Peterborough City Hospital
PE3 9 GZ

Things to bring
Sutures, needle holders, suture scissors.
Surgical burs you use in practice.

Friday 10th November

Learning Centre, Peterborough City Hospital

Afternoon Session

CPD = 3 Hrs

14.00

Management of facial pain and TMJ disorders

Wg Cdr Andy Gibbons

Consultant Oral and Maxillofacial Surgeon

Many of the patients we see who complain of facial pain will have a dental origin for their complaint. However, we will encounter patients with TMJD, facial pain of non dental origin or atypical facial pain.

What is differential diagnosis? How can you manage these patients as effectively as possible. What is the role of the GDP and when should you refer?

What causes snoring? Does it matter? Why do some people get so upset about it? What can you do to help?

Objectives

- *To discuss the aetiology and management of TMJD and facial pain*
- *To understand the role of splint therapy*
- *To discuss the management of snoring*
- *To gain insight into a dental career in a military setting*

Learning outcomes

- *Improved diagnostic skills for TMJD and facial pain*
- *Understanding the role of the GDP in management of TMJD, facial pain and snoring*
- *To know how and when to refer patients*
- *Knowledge of career opportunities within the military*

Foundation skills submission

Thursday 16th November

Basildon Simulation Centre, Basildon

Morning Session

CPD = 3 Hrs

09.30

Crowns in general dental practice

Dr. Glen Taylor

General Dental Practitioner

You will have had different amounts of clinical experience both in assessing teeth for crowns and carrying out preparations. How good are your crown preparations?

What factors will you need to consider if you are thinking about prescribing a crown?

Crown preparation is destructive so how do you decide when to crown? What are the options? How do you decide what type of crown should to use? How do you justify your decision? What are the practical, time and financial implications of your decision and how to you discuss this with the patient?

You will think about how to prepare teeth and the stages required in crown production.

How do preps need to be modified for different types of crown?

What impression materials and techniques give the best results.?

How do you temporise successfully?

What problems will you encounter and how can you prevent them or manage them?

Venue
Basildon Simulation Suite
Basildon Hospital
Nethermayne
SS16 5NL

Parking in the multistorey

Things to bring

The crown burs you use

Extracted teeth

A study model of one of your own or your Ess crown preps

Thursday 16th November

Basildon Simulation Centre, Basildon

Afternoon Session

CPD = 3 Hrs

14.00

Crowns in general dental practice

Dr. Glen Taylor

General Dental Practitioner

This afternoon you will be looking at more complex post crown preparations.

What are the indications, contraindications and alternatives?

What are the challenges? How do you prepare a post hole and what systems are available?

When should you use a direct or indirect post?

What are the risks and benefits? What do you need to discuss with your patient?

Objectives

- *To explore the indications and contra indications for crowns*
- *To understand the rationale of crown prescription*
- *To think about your communication with the technician*
- *To practice some crown preps and evaluate your work*

Learning outcomes

- *Better clinical decision making and justification for treatment plans involving crowns*
- *Greater knowledge of types of crowns, impression taking and temporisation techniques*
- *Improved ability to critique your work*
- *Improved quality of communication with your lab and technician*
- *Better treatment options for, and communication with, your patient*

Case presentation submission

Friday 01st December

Lister Education Centre, Stevenage

Morning Session

CPD = 4 Hrs

09.00 Mini Case Presentations:

FDs

You will be expected to present your work in a variety of ways to different audiences throughout your career. For some of you this will be easy, but for others it will be new and be anxiety provoking. The best place to start is with your friends and colleagues.

Today you will have the chance to present a case that you have been working on this term. It should be either a dental emergency patient, dental trauma or an advanced treatment planning case.

You should prepare a powerpoint to support a 10 minute oral presentation

You will be assessed by your peers and some ESSs

Objectives

- *To deliver a case presentation to an audience*
- *To assess your own work and that of your peers*
- *To learn how to give and receive constructive feedback*

Learning outcomes

- *Identifying areas to improve your presentation and presentation skills*
- *To know the expected standards for the final DFT case presentation*
- *Improved ability in giving and receiving effective feedback*

Friday 01st December

Lister Education Centre, Stevenage

Afternoon Session

CPD = 2 Hrs

14.00

The biggest challenge of my professional career

Education Supervisors

All our Educational Supervisors are motivated, successful professional people. How have they got there? Has it all been straightforward plain sailing? What have been the opportunities they have taken and challenges they have had to overcome. This afternoon the ESs will be sharing some of the most pivotal points and challenges of their careers. What can you learn from their experiences? What are the characteristics of successful people? What do you need to aspire to? What is life like after DFT?

Objectives

- *To learn about challenges that occur during professional careers*
- *To explore characteristics that underpin successful professional people*
- *To see different career pathways*
- *To think about work life balance*

Learning outcomes

- *Greater understanding of the realities of professional life*
- *Broader knowledge of potential career pathways*
- *The concepts of resilience and how to manage professional challenges effectively*
