

EXPAND YOUR HORIZONS IN RURAL AFRICA

MAKE A REAL DIFFERENCE - ARE YOU UP FOR THE CHALLENGE?

GLOBAL HEALTH FELLOWSHIP VOLUNTEER PROGRAMME

SOUTH AFRICA

KENYA

MALAWI

NAMIBIA

UGANDA

Are you a resilient specialist trainee in General Practice, ACCS or Paediatrics and wish to take time out of programme to volunteer as a GH Fellow in Africa?

You could be eligible to apply for a Global Health Fellowship through Health Education England and volunteer for a 4-6 month deployment in a rural African Hospital/Clinic.

As part of a team, you could be treating HIV/AIDS, trauma, infectious and chronic diseases, obstetrics, and learn to give a spinal anaesthetic. Alongside opportunities for travel, like-minded volunteers can exchange ideas and create healthcare solutions for the challenges they experience.

Apply through your Deanery Global Health Lead or Specialty Head of School after starting your ST1 or ST2 (CT 1/2) rotation.

HEE will pay a small stipend to all GHF Volunteers deployed overseas.
