

How to Avoid Pitfalls in Medical Law in Clinical Practice webinar

6 external CPD points

We are working with NHS England, East of England to provide this webinar, and this course is open to all SAS and LED doctors ONLY from this region.

Introduction

This session has been designed to introduce doctors to the key principles of medical law and ethics related to clinical practice and will include GMC requirements and recommendations for good professional practice. It will focus on applying that understanding to enhancing clinical care and supporting doctors in responding when their practice is challenged.

It will also help delegates to consider the ethical aspects/consequences of their decision making and think about the decisions they are making not just in a medical/clinical sense but how their actions might affect their patients (and their families) holistically.

Course Structure

Course Structure

- Live webinar
- Date and timings: 28th March. 10am – 12.30pm AND 1.30pm – 4pm.
- Link: <https://www.eventbrite.co.uk/e/how-to-avoid-pitfalls-in-medical-law-in-clinical-practice-tickets-793049060087>

Course Objectives

- To move from thinking about consent to shared decision making
- To feel more confident with consent in challenging circumstances
- To understand the origin of most complaints
- To be more confident responding to complaints
- To understand the legal basis for a negligence claim
- To understand and use ethical practice to underpin clinical decision making
