

School of Public Health East of England

Why The East of England?

High standard of
Training (Any statistics or awards we can show off?)

Excellent range of
Opportunities

Good quality of life
outside of training

Meet The Team

Jan Yates (Head of School, above) along with
Anne Swift (TPD North), Sara Godward (TPD South)

Rotations

In order to make the lives of trainees easier, Public Health has split training in the region between North (Bedfordshire, Cambridgeshire, Norfolk and Suffolk) and South (Hertfordshire and Essex), allowing for rotations to avoid causing trainees to travel long distances

Simulation

Trainees will be given opportunities to practice PH skills in scenarios in preparation for part B (The means and specifics of simulation might be useful here, but not essential)

Course Details

Public Health is a Five Year Run Through course consisting of 4 years of training plus one year of academic study. Trainees would get a chance to be trained in a variety of Local authorities, PHE Teams, NHSE Teams, CCGs and two Acute Trusts, among others.

Did you know?

Some registrars pursue a PhD in preparation for an academic career; some focus on health protection or healthcare public health

Exams

Parts A and B of MFPH will be undertaken during the training program, with preparation offered in the form of a mix of cohort learning, practice and individually-tailored learning in placements

Research

There are placements at UEA, UC, MRC as well as support for Out of Program Research

Public Health

Frequently asked questions

Teaching & Study Leave

How is the regional teaching program structured?

Organised by ST year group

How many days of study leave do I get?

30

What opportunities are there for simulation training in the region?

Opportunities to practice PH skills in scenarios in preparation for part B

If Medicine was a car industry, which car would represent Public Health and why?

We Public Health types prefer to use public transport and active travel...but perhaps an electric car - always using the best available technology and information, always aiming to improve, always considering the wider implications for the population.

Training Programme

How many years is the training program?

4 plus academic year

Is the training run through or decoupled?

Run through

Which units in the East of England can I be trained in?

Local authorities, PHE teams, NHSE teams, CCGs, 2 acutes, and others

Are there more localized Sub-rotations to avoid long commutes? We don't strictly have sub rotations but we have split EoE into north and south zones

What induction program is there into training in the region?

2 days regionally, staggered induction over 2 months in first placement

How is recruitment organized?

Nationally

Opportunities

What Sub-specialty / fellowship training opportunities are there in the region?

Some registrars pursue a PhD in preparation for an academic career; some focus on health protection or healthcare public health.

What research opportunities are there in the region?

There are placements at UEA, UC, MRC.

Do you support Out of Programme Research?

OOPRs are supported.

Is there scope for work overseas during my training?

Not routine; can be accommodated.

Where can I go for more information?

Regional Website

https://heeo.ee.nhs.uk/public_health

National Information

<https://www.fph.org.uk/>

Exams

What exams will I have to sit during my training?
