

‘Return Ready’

A simulation-based clinical refresher and human factors course for doctors returning to training

Tuesday 8th September 2026
Friday 20th November 2026
Tuesday 9th March 2027

This one-day course is designed to support doctors in training who are returning to clinical practice after a period away from training. Through a combination of simulated clinical scenarios, facilitated debriefing, and peer learning, participants in a safe and supportive environment.

By supporting doctors during their return to clinical practice, the programme aims to promote a smoother and safer transition back into the workplace. It helps reduce anxiety, rebuild professional confidence and support participants in resuming their clinical roles with greater competence and assurance.

All sessions are funded by the SuppoRT Team at NHS England

Spaces available FY and IMT trainees
