

Simulation Courses

T3 Part Two: Delivering effective simulation

Effective simulation requires expertise. This intensive one-day course teaches the knowledge, skills and techniques necessary to deliver a simulation-based course:

- Scenario planning and writing
- Mannequin operation
- Audiovisual operation
- Scenarios in action
- Running a simulation-based course
- Managing a simulation facility

As with all the courses we run at the Postgraduate Medical Institute Simulation Centre, T3 Part Two is a practical course with plenty of time for hands on experience at writing and running simulation scenarios.

This course is part two of a two-part programme. T3 Part One covers debriefing skills for simulation.

Location

Postgraduate Medical Institute
Anglia Ruskin University
Bishop Hall Lane, Chelmsford
Essex, CM1 1SQ

Delegate Registration

All delegates: £150. To book please visit the Anglia Ruskin Online Store at store.anglia.ac.uk (go to Postgraduate Medical Institute Conferences & Events under Conferences and Events).
