

Two day training for SuppoRRT

January 26th and 27th 2026

Are you a resident doctor returning to the workforce after a hiatus? We understand the unique challenges you may face and are here to support your transition with our comprehensive two-stage training program.

Stage 1: Human Factors Training Day *Dive into the essentials of teamwork, effective communication, and situational awareness. Learn how to navigate the complexities of the medical environment with confidence and clarity*

Stage 2: Simulation Practice of Medical Cases *Engage in hands-on simulation exercises that mirror real-life medical scenarios. This immersive experience will bolster your clinical skills and prepare you for the dynamic challenges of patient care.*

Join us to rebuild your confidence and excel in your career, which you are passionate about. Let's make your return to work a successful and fulfilling journey!

This course is free as part of the SuppoRRT programme.

Location: Education Centre [West Suffolk Hospital Bury St. Edmunds](#).
